## Registration for Draft Begins

### Cadets Given Appointments By Daughters

Practice Teaching Jobs For Education Majors Are Assigned by Dean

Forty students have received appointments for cadet teaching jobs, according to Dean Freeman Daughters of the School of Education. Of these, 23 will teach in the Missoula County High school, 14 in Missoula grade schools and three in Stevensville schools.

Students who will teach in the high school are Ruth Argersinger, Lewistown; Mary Rose Chappellu, Belfry; Mary L. Clapp, Missoula; Boyd Cochrell, Missoula; Florence Burton, Missoula; James W. Gladden, Perma; Jane Eckford, Choteau; Robert Henderson, Drummond; Jessie Hogan, Missoula; Lawrence Lee, Max, N. D.; William R. Manning, Wibaux; Laura F. Mattson, Corvallis; Frances A. O'Connell, Helena; Kathryn Russell, Bozeman; Enid Thornton, Butte; Rachel Trask, Deer Lodge; Elizabeth Wood, Bridger; Leland Yates, Victor; C. Louise Jarussi, Red Lodge; Virginia Latham, Billings; Louise Burgmaier, Power; Ruth Harrison, Deer Lodge, and Betty Lou Points, Missoula.

#### City Schools

In city grade schools will be John Bays, Lookout, W. Va.; Prescott; Harold Goldstein, Miles City; Willard; Betty L. Johnson, Brockway; Willard; Helen Marie Nielsen, Big Sandy, Roosevelt; Elizabeth Parker, Livingston, Willard; Ruth Remington, Belt, Roosevelt; Mary Ricketts, Kalispell, Central; Louise Rostad, Big Timber, Willard; Frances Whalen, Pompey's Pillar, Paxson; Barbara Raymond, Malta, Central; Mary Templeton, Helena, Roosevelt; Helen Buker, Great Falls, Willard; Sarah Jane Barclay, Helena, Central, and Edgar Murphy, Rudyard, Whittier and Lowell.

Elsie Hanson, White Sulphur Springs; Ara Long Logan, Missoula, and Mrs. Beulah McNeal, Choteau, will teach in Stevensville schools.

Cadets will meet regularly with Professor W. R. Ames of the School of Education, who will also visit the schools in which the student teachers are working and help them with any teaching difficulties which they may encounter.

### Pre-Game Rally To Be Tomorrow

A pre-game pep rally to send the Grizzlies to Butte for the Grizzly-Bobcat game will be in the Student Union auditorium at 7:30 o'clock tomorrow night, John Kujich, Great Falls, chairman of Traditions board, said today.

Coach Doug Fessenden and Captain Tom O'Donnell will speak and a motion picture showing the entire Washington State-Montana U game will be projected. The Grizzly band will play pep numbers and Yell King Harold McChesney will lead the cheering.

### Early Registrants

Ken Drahos, Lewis Yarlett, Wilbur Dufour and Charles Eidel were the first students to sign Selective Service registration cards this morning. The clerks are Bill McLure, Bob Wylder, Walter Elliott and Francis Clapp, director.

### University To Be Asked To Contribute

Dean T. C. Spaulding of the forestry school will direct the university's participation in the Community Chest drive which started yesterday morning and which will continue through Friday.

The university was made a separate unit in the Missoula county drive, Spaulding said, because of the concerted interest people working with the university have in developing boys and girls and aiding social enterprises which make life more worthwhile.

Between October 14 and October 19, every member of the university staff will be contacted and will be asked by campus drive workers to contribute to the project. If the university is to meet proportionately the \$24,500 budget set for Missoula county for 1941, it must contribute \$1,200, said Spaulding.

The following section chairmen have been designated for university campaigning: Charles Hertler, men's and women's gymnasiums and athletic staffs; Professor Melvin Morris, forestry building, including the nursery and experiment station; Assistant Professor A. C. Cogswell, journalism building; Professor J. W. Howard, pharmacy-chemistry building; Professor E. A. Atkinson, Main hall; Dean Robert Line, Craig hall; Associate Professor Paul Bischoff, law building; Associate Professor Rufus Coleman, library; Professor Anne Platt, natural science building; Morris McCollum, Student Union building; Mrs. Monica B. Swearingen, residence halls; Tom Swearingen, maintenance department; Dean Spaulding, all others not yet contacted.

### Governing Body Recommends 3 For Committee

Mary Jane Deegan, Big Timber; Emmajane Gibson, Butte, and Al Angstman, Helena, were recommended by Central board yesterday for positions on the Student Union executive committee. Micki Wright, Great Falls, and Mary Ann Anderson, Raynesford, former members of the committee, did not return to school this quarter. Ed Jewett, Great Falls, and Ole Ueland, Brockway, are other members of the committee.

Barbara Adams, Billings, Spur representative, presented plans for a new dance which the Spurs hope will become a tradition on the campus—a Sadie Hawkins day. If plans are approved by the board, the dance will be given Friday, December 13, with students impersonating characters from the Li'l Abner comic strip. Miss Adams stated that other schools have used the Sadie Hawkins theme with a great deal of success. She suggested that ASMSU sponsor the dance. The board tabled action on the plan to give members time to get viewpoints of campus clubs and organizations.

The board authorized purchase of an oboe for the band and orchestra. The money for the oboe will be appropriated equally from the band budget and the orchestra and glee club budget. The move was made upon the receipt of a communication from John Crowder, dean of the music school, who stated that an oboe was almost a necessity in the instrumentation of the band and orchestra.

John Kujich, Traditions board chairman, asked for an appropriation for Traditions board to pay for sweaters to be awarded cheerleaders upon completion of one year of service.

### Men May Register Until 9 o'clock

University men may register until 7 o'clock in the Bitter Root room of the Student Union building and from 7 to 9 o'clock tonight in the Central board room. Students within the age limits in the primary course of ROTC must register today.

Any man of conscription age, 21 to 35, inclusive, who knowingly fails to register today under the Selective Service act or who makes false statements to evade military service, is subject to five years' imprisonment, \$10,000 fine, or both.

### Co-op Students Elect Bangs

Kenneth Bangs, Inverness, was elected president of the Student Cooperative association last night at a dinner meeting at which members voted to incorporate and adopted a constitution. Bob Casebeer, Clarion, Iowa, and Gertrude Hakola, Sand Coulee, were elected to represent the buying club on the board of directors, and Norma Prescott, Outlook, and Lenore Cole, Darby, to represent the girls' co-op house.

"Incorporation allows us to own property and insures a continuing membership," Al Schmitz, Brockton, manager, explained.

Guests were Dean and Mrs. J. E. Miller, Acting Dean Mary Elrod Ferguson, Mr. and Mrs. Gerard F. Price, Professor Ann Platt and Rev. and Mrs. Harvey Baty.

Vivian Medlin, Butte, was pledged to Kappa Epsilon, national women's pharmaceutical fraternity, Monday, announced Lois Murphy, Butte, president.

### Students Registering On Campus

Men Signing in Student Union Since 7 o'clock This Morning

University men between the ages of 21 and 36 began registering at 7 o'clock this morning in the Bitter Root room of the Student Union building for the first national peace-time draft in the history of the United States. About 450 students and faculty members are expected to register today. The Bitter Root room will be open until 7 o'clock tonight, after which late registrants may go to Central board room which will be open until 9 o'clock.

Eighteen students were waiting outside the registration office door at one minute to 7 o'clock this morning. Eleven were forestry students. Kenneth Drahos, Sumner, Wash.; Lewis Yarlett, Polson; Wilfred Dufour, Somers, and Charles Eidel, Great Falls, were the first students to register.

#### Clapp Is Director

Francis Clapp, second lieutenant in the Officers Reserve corps and director of draft registration, appointed three students to assist him in the work. They are Bob Wylder, Havre; Walter Elliott, Fort Benton, and Bill McLure, Missoula. Clapp, who served in the Montana recruiting service this summer, was appointed by President George Finlay Simmons.

All students and members of the faculty within the age limits, who are not regularly enrolled members of the advanced ROTC course, must register unless they are members of the army, navy or marine reserves or active army men. Students within the age limits in the primary course of ROTC must register.

#### Each Student Responsible

Each student is responsible for his own registration. Conscription officials have declared that the nationwide publicity given this program is sufficient notice and that no personal communication is needed.

An enlarged copy of the registration card, which is to be filled out, is posted on the Student Union bulletin board. Students should study this copy before going to the registration office, Clapp said.

At the time of registration each man is given a certificate which states that he has registered. This card should be carried at all times. Students who may be selected for service after registration can have their service deferred until the end of the academic year.

As each registrant presents himself, he will be asked: 1, his name; 2, his address; 3, telephone number; 4, age; 5, place of birth; 6, country of citizenship; 7, the name of a person who will always know his address; 8, his relationship to the latter; 9, the address of the latter; 10, his employer's name, and 11, his place of employment or business.

About 2500 individual drawings are required to make a light tank.

# The MONTANA KAIMIN

Established 1898

The name Kaimin (pronounced Ki-men) is derived from the original Selah Indian word, and means "something written" or "a message."

### Phi Deltis Pledge Joe Beck

Joe Beck, Deer Lodge, pledged Phi Delta Theta Monday.

Phi Sigma Kappa had formal initiation Monday night for Ken Nybo, Billings; Charles Butler, Lewistown; Bill Chebul, Miles City; Charles Boyle, Anaconda; Aubrey J. Borek, Columbus, and Barlow Ghirardo, Missoula.

### Dr. Webster Visits Theta Chi

Dr. Webster, regional counselor of DeMolay, was the dinner guest of Theta Chi Sunday.

Genevieve Gregory, Ronan, was a dinner guest at the Theta Chi house Sunday.

The Theta Chis had a fireside Friday night.

Carlabelle Button, Missoula, talked to the North hall women about AWS rules at their house meeting Monday.

Dr. Louise Arnoldson had lunch at New hall Thursday.

### New Hall Has Many Guests

Dinner guests of New hall last week-end were Audrey Darian, guest of Helen Peterson; Mrs. H. C. Young, guest of Dorothy Gilman; Margaret Miller, Georgia Roosevelt and Sybil Christiani, guests of Clarissa Olson; Lois Howard, guest of Mary Rose Chappellu; Pat MacHale, guest of Maxine O'Donnell; Ruth Timm, guest of Jean Wessinger, and Elaine Nelson and Cleo Hagen, who were the guests of Vera Hunt.

Alpha Chi Omega announces the pledging of Jean Haman, Butte.

### Alpha Chi Has Dinner Guests

Dorothy Needham, Sheridan, Wyo., and Shirley Haman, Butte, were dinner guests of Alpha Chi Omega Monday.

Bonnie Mitchell and Elaine Phillips, Helena, and Virginia Bunker, Stevensville, were house guests of Alpha Phi over the week-end.

### Formal Reception At Alpha Phi House

Mrs. Dennison, housemother of Alpha Phi, was honored at a formal reception Sunday. In the receiving line were Mrs. G. F. Simmons, Mrs. Dennison, Mrs. Wallace Brennan, Mrs. A. C. Cogswell and Jean Yardley. Mrs. E. E. Bennett, Mrs. Barra, Mrs. A. R. Foss and Mrs. Lucille Jameson Armsby poured.

Ramah Gaston, Whitehall, left

more good when he's trying to get there and can feel that he has some real purpose in doing what he is attempting, that someone cares one way or the other.

Those boys out there in the mud aren't playing for the pure air and physical exercise they get. They're trying to get another scalp to hang in the trophy rooms of MSU; all right, they're doing it for the glory of the school. And no matter how old-fashioned, wistful and Boola-Boola-ish that may sound, it's the truth. As far as that goes, the student body could stand a good deal more of the Boola-Boola spirit and not lose caste. Or else why bother to spend the money and time and effort at all? The team can get its exercise playing sandlot ball if that's all the game amounts to.

And while we're about it, a few of the old-fashioned Boola yells, like 15 for the team, etc., might be in order. And they were never intended to be duets.

BUD HUSTAD.

## Director Returns From Conference

Dr. G. D. Shallenberger, director of the summer session and professor of physics, returned Monday from Ann Arbor, Mich., where he attended the annual summer session deans' conference. Forty members throughout the United States attended the meeting last Thursday and Friday.

The conference discussed methods of cooperating with the government in the national defense program, employment by universities of visiting professors, most suitable times for sending literature on summer sessions and recreation programs which could be used during the summer.

Conclave delegates revealed that enrollments were lower than usual last summer and indications are that they will be still lower this year because of the defense program.

### NOTICE

M club meets at 7:30 o'clock tonight in the Student Union building.

the Delta Delta Delta house to visit at home last week-end

Helen Holloway and Adeline Bouleware, Butte, left the Delta Gamma house to visit at home Sunday.

Irene Gladstone, Portland, a former pledge of Kappa Alpha Theta, is visiting at the house this week.

### Sigma Nu Pledges Three

Sigma Nu announces the pledging of Jack Burgess, Missoula; Ray Vevick, Livingston, and Tom Pennington, Great Falls.

## Students Can Turn Blood Into Gold

Students interested in selling some of their blood to the United States Public Health service should see Dr. Meredith Hesdorffer or Dr. John Duffalo in the health service today. The blood will be used by the Rocky Mountain laboratory in preparing a special spread vaccine.

Those who are accepted as sellers will be chosen in groups of ten. They will be required to sell about 5,000 cubic centimeters of blood each week. One hundred to 150 students will be necessary to give the amount of blood the laboratory needs, Dr. R. R. Porter, director of the laboratory, said yesterday.

### NOTICE

Managers' club will meet at 7:15 o'clock tonight in the Eloise Knowles room of the Student Union building.

## MAKE DEMOCRACY WORK; VOTE ON NOVEMBER 5

On November 6, Franklin Delano Roosevelt will be either the first president of the United States to claim a third term in office or the beaten apostle of the Democratic party; Wendell Willkie the white hope of the nation or another rebuffed Republican candidate. In any event, when election judges have completed their gigantic task of counting the ballots, the largest vote in American history will probably have been chalked up, attesting, despite the accusations of European dictators, that democracy is a very much alive form of government in these United States.

Since our parents swarmed to the polls two decades ago to cast their ballots for Warren G. Harding or James M. Cox, the popular vote has jumped from 26 million to more than 45 million in 1936. In keeping with past increases and the increasing heat of 1940 campaign issues, this year's vote should be somewhere in the neighborhood of 52 million ballots, 9 million of which may be cast by young Americans in college who have reached 21 since the last election.

Appealing to this age group, of which less than 50 per cent have bothered to exercise their voting privilege in the past, the Young Voters' Exchange of New York City sent out a request that all first voters be sure and cast their ballot in the general election. An excerpt from a recent release of the YVE which should be read and the advice followed by college students declares "American democracy must survive. Can it? Nine million youngsters hold the answer. Nine million young people have reached the age to vote in their first presidential campaign. Both parties know they might well decide the election. Will they? Maybe. In the past less than half of them have bothered to vote. Not enough of them have any clear idea of what all the shooting is about. They know freedom is a priceless thing. They would defend it with their lives. But the battle for democracy depends as much upon the simple, undramatic business of casting a vote as upon the willingness to put on a uniform and pick up a gun.

"Voting is a privilege, but it is a duty too, or the privilege is lost. A voter is stimulated to an interest in the problems of his country and in that interest lies the strength of popular government. The vote is a barometer of the people's devotion to their government. Enlightened voters make poor material for totalitarian systems. Nine million voters are a challenge to us. They are the reservoir, the new blood of democracy. If we can get them excited about the privileges and duties of citizenship, our democracy lives. If not, it sickens and dies."

## Communications

To the Students:

All right, so we lost! We lost by a score of 32 to 19, and we don't like it. From the stands we who were not playing the game could see any number of holes which the boys should have used and could have used to our and their advantage. There was a lot of room around the ends. We know. We could see it, and why didn't the team see it? Are the boys blind? We weren't in there playing, but we could see it.

You bet we weren't in there playing. We weren't in anywhere playing. We didn't even come to the game for all the indication we gave. The parents and townspeople across the field drowned out the Grizzly rooting section. The subs on the Texas bench made more noise than all the rest of the stands put together.

Perhaps it's as Doc Severy said Friday night: Maybe we're too young a school to expect too much

noise and audible support for a bunch of punks who take up our valuable time asking us to watch them kick a hunk of pigskin around a vacant lot. Perhaps 47 years of tradition and memories and work don't mean a thing. And the fact that a lot of money and work were put into a plot of ground because we or our alums indicated that football was wanted and appreciated and would be supported by the student body of the school was just a darned good joke that we put over on somebody during one of their weak moments, and now that they have the field what are they going to do with it?

Of all the measley, weak, under-graduate, super-sophisticated, pseudo-blase tea parties ever held in a football stadium the one held by those members of ASMSU who bothered to come to the game at all certainly gets the button. There were several who could bring themselves to offer support at times other than when the team did make a score. Anybody will cheer a victor when he's at the top and doesn't need it. It does a lot

## Gridiron Foes For 42 Years To Mix Again

Smarting from their defeat of last Saturday by Texas Tech, the Grizzlies will resume their oldest football rivalry when they meet Montana State in their annual gridiron classic at Butte this weekend. Montana will be out to make it eight straight wins over the Bobcats in this forty-second contest between the two schools.

The Montana team first played the Aggies on Thanksgiving day in 1897, inauguration of the first year of football at the university. The Grizzlies, 18 strong and clad in overalls clipped off at the knees, won, 18 to 6. Since then the university has taken 29, tied five and lost eight of the 41 contests between the two rivals.

### Farrell Is Hurt

A possible concussion of the brain may keep Farrell, a runner de luxe, kicker and passer, around whom the Aggie attack is centered, out of the game. Farrell was injured, only slightly it was thought at the time, in the Bobcat-North Dakota State game Oct. 4. Friday he complained of a headache and was interned in the hospital, but will probably be ready for action Saturday.

The Bobcats, with one of their strongest lineups in several years, have been clicking on pass defense and with the exception of Farrell the team is in tip-top shape.

Joe May, veteran quarterback who has been out of play for two games, will be ready for the Grizzlies. May sparked for the Bobcats in the last two Bobcat-Grizzly tussles. Jack Burke, another senior, will be relied upon to brace the Cats' forward wall and strengthen the morale of the squad. Burke plays at tackle and his weight and experience make his post one of the bright spots in the Aggie line.

### Duley Is Versatile

In Ray Duley, Coach Shubert Dyche has a player who can fill in at almost any position. Duley, also a senior, has been shifted around so much in the past two years he can never be certain from one game to the next where he will play. He usually takes the running guard assignment or smashes the line from the fullback position.

Montana did not suffer any serious injuries in the Texas Tech game and will start at full strength against the Bobcats for the first time in two years. Last year only four of the men who started the first game of the season were able to play in the Bobcat-Grizzly tussle. The Grizzlies outplayed the outclassed Bobcat squad throughout the game, but could punch only one touchdown across for a 6-0 victory.

## SAE's Flatten SPE's; Phi Delt's Beat Phi Sigs

Sigma Alpha Epsilon scored a safety and a touchdown to defeat Sigma Phi Epsilon 8 to 0 in the Clover bowl yesterday, and Phi Delta Theta, with well-executed reverses, fakes and laterals plus a strong aerial attack, romped to a 19-to-0 victory over the strong Phi Sigma Kappa team.

Scores for SAE came in the third and fourth periods. In the third quarter, Ruffcorn intercepted an SAE pass behind his own goal line and was tagged there, giving the SAE's two points. Near the end of the fourth quarter Burgess heaved a 50-yard pass to Fairbanks on the three-yard line. Shields tossed another to Fairbanks for the SAE touchdown.

Phi Delta Theta scored in the

## I'm Right---You're Wrong

BY K. KIZER

### THE FORTY-SECOND ANNUAL

The intersectional rivalry between the Texans and the Montanans and the scrap over the "Little Brown Stein" with the Idaho Vandals are all in a football season. But the sharpest, keenest intercollegiate game in the state of Montana will occur for the forty-second time this Saturday in Butte when the Bobcats of Montana State college and the Grizzlies tangle. This fall is Fessenden's sixth year and the sum total of Bobcat points is nil in that time, while the Grizzlies have rolled up 142 points for an average score of 20.3 to a goose-egg. This is a record of some kind.

For those who like a bit of color with their football, Saturday is the time and Butte is the place. Bands, parades and all the trimmings of a three-ring circus will be enjoyed by those who are so fortunate as to climb on trains and autos to make the trip. This coming battle promises to be the keenest since 1932 when the Bobcats last crossed the pay-stripe against the Grizzlies and had the taste of bear blood on their bicusps. And don't think the Cats aren't counting on tasting those red corpuscles again.

ASMSU and ASMSC may have buried the hatchet as far as "vandalism" on the campuses is concerned, but those who harbor the thought that it will also hold true for the gridiron are sadly mistaken. Records this year indicate that neither team holds any illusions of grandeur. The Bobcats have played four games, scoring 18 points to their opponents' 90. They won from Western State 12-0 and North Dakota Aggies 6-0, and lost to San Jose 34-0 and to Drake U 56-0. The Grizzlies have done a little better, scoring 28 points against 45, one win and a double loss. Fairly even but with a visible edge toward the Fessendenmen.

No word comes out of Bozeman on the injury jinx so common to "us northern schools." With a week-end rest the Dyche-coached men should be in dandy shape and ready to go. As far as hospital lists and training table statistics go, Montana has a lone injury in Teddy Walters' ankle, broken before the season ever started. A few skinned noses and a bruised cheekbone or two is all the Grizzlies received from the Raiders. The edge goes to the Bobcats because of

first three quarters, the educated toe and arm of Larry Potter, coupled with a good line and the catching ability of Barney Ryan being good for two touchdowns and two field goals.

Both teams intercepted passes at just the right moments, but Phi Sigma Kappa lacked a scoring punch. Bill Woolston, passing and kicking for the losers, had plenty of time to make good passes but receivers were so well covered that few were completed.

"Goldie" Goldstein gained yardage consistently on a Phi Sig sneak play off tackle. Ghirardo's returns on kickoffs averaged close to 20 yards. The Phi Sigs put on the pressure in the final period but succeeded only in holding the victors scoreless.

### NOTICE

Tickets for the Butte game will not be exchanged on the campus, but rather on the special train Saturday morning and at the Finlen hotel until 1 o'clock Saturday. Activity tickets must be presented at gate with game tickets!

DEREK PRICE,

ASMSU Business Manager.

### GLEASON CONFERS

Helen Gleason, head of the department of home economics, spent Tuesday afternoon with Superintendent Korn at Stevensville, the teachers' practice center, observing and conferring with the student teachers.

their week's rest in the fraternity house parlors.

Both squads use a single-wing offense. The local yokels have by far the best passing attack since "Wild Bill" Kelly and the ball will be much safer in the air in the Rock Pile stadium in Butte than it will be on the ground. Montana has the speed in Karl Fiske and Jack Emigh and the power in Bobby Sparks and Johnny Reagan. They have a punting duo in Don Bryan and Bill Jones, and all six of 'em can run through, around and past the lines of scrimmage. The edge on offense is definitely toward the western side of the Rocky Mountain divide.

Dyche and Fessenden have taught a 6-2-2-1 defense since their coaching careers started at the respective institutions. Montana's pass defense against the Washington Staters proved nearly disastrous to the Cougars, but their running defense wasn't so hot. Neither was spectacular against the Tech Raiders. Yet the Bobcats have let their opponents score 13 touchdowns against them, so their defense isn't anything to boast about, either. Not in the know on the Cat alibis, the edge is even.

We believe in life, love and the pursuit of happiness. We also believe in the freedom of the press. Here we go out on that limb with a saw in our hands, ready to cut it off behind us: Montana by three touchdowns. Our telephone number is 4739.

## Cubs to Play Two Games

Undertaking a double duty, the thankless task of being dummies for the scrimmaging varsity while trying to develop their own plays, the Cubs have been getting quite a workout each afternoon down on the practice field. There has been a single injury, Kampfe's broken collar bone, to mar the fall's practice sessions so far.

Coach Jim Brown has Novis and Burke at ends, Mohland and Mather at tackles, Heien and Rossmiller at guards and Kimmit at center for his first forward wall, with Davis, Scott, Smallwood and McQuirk in the secondary. Johnson, Vaughn, Collins, Luebke, Martin, McIntosh, Gulbranson, Chore and Tyvand have so far proven the best of the reserve power.

The Cubs will play two games this fall. On October 26 they will

## Get More Fun Out of Your Sports, Work, Social Life— Chew Delicious DOUBLEMINT GUM Daily

Alert college men and women everywhere enjoy the refreshing, real-mint flavor... the velvety smoothness... of healthful, delicious DOUBLEMINT GUM.

Just see for yourself how enjoying this refreshing treat adds fun to everything you do. Chewing DOUBLEMINT GUM daily helps relieve your pent-up nervous tension... helps sweeten your breath and keep your teeth attractive. Aids your digestion, too.

Popular DOUBLEMINT GUM is inexpensive, wholesome, satisfying.

Buy several packages of DOUBLEMINT GUM today

## Browman Will Do Research Under Grant

Research on the effects of light on the growth and reproduction of albino rats, which previously had been furthered by grants from the American Association for the Advancement of Science and the American Philosophical society, is being continued this year by Dr. Ludvig G. Browman, assistant professor of zoology, under a grant from the National Research council.

The grant of \$1,000 was recommended by the Committee for Research in Problems of Sex last summer and is in recognition of the commendable work Browman has been doing for several years.

Dr. Browman has already proved that the reproductive and activity rhythm of male and female rats can be controlled by artificial light and that the reproductive cycle of the female rat can be stimulated by increasing the ration of light so that the animal receives a constant supply.

Specifically, the grant was awarded for "an investigation of the influence of controlled light rations on growth and sexual maturity of inbred albino rats." The grant was sufficiently liberal to make possible the purchase of laboratory equipment and chemicals and the hiring of a technical assistant.

In this connection the present problem involved is whether the eye of the rat acts as a nerve system center in transferring light rays to the reproductive system or as an endocrine gland which is stimulated by light.

Dr. Browman, a graduate of the University of Chicago in 1928, received his doctor's degree also from the University of Chicago in 1935. Meanwhile he studied in England and traveled and studied in Scandinavia. He served as a curator of zoology at the University of Chicago for several years and was research embryologist for the division of animal husbandry at Texas A. and M.

Dr. Browman's rat colony, which has accompanied him in his travels during the past several years, is at present housed in the laboratory-greenhouse addition of the Natural Science building. The animals are kept in excellent physical condition with scientifically prepared diets.

## PS Appoints Committees

Committee members of Phi Sigma, national biological honorary, were announced yesterday by Allen Chesbro, Raynesford, president.

Eugene Elliott, Billings, chairman; Emily Louise Marlow, Helena; Kenneth Boe, Outlook, and Kenneth Thompson, Missoula, were appointed to the membership committee.

Chesbro, chairman, selected Merle Rognurd, St. Ignace; Leonard Smith, Spokane, Wash., and Eugene Elliott as program committee members.

History and record committee appointments include Dr. Fred A. Barkley, instructor in botany, advisor; Jim Salinas, Miles City, chairman; John P. Robinson, Independence, Kan., and Mary Clapp, Missoula.

Robert Bowman, Lewistown, chairman; Walter Sundell, Rock Springs; Joe Mast, White Sulphur Springs; Emily Louise Marlow and Mary Clapp were appointed on the initiation committee.

## Twenty-two Turn Out for University Debate Squad

Twenty-two students, 12 varsity debaters and 10 freshmen, turned out for the university debate squad, Ralph Y. McGinnis, instructor in speech, announced today.

Those on the varsity squad are Glen Nelson, Garvin Shallenberger and Ted Saldin, all of Missoula; Bob Notti and Walter Niemi, Butte; Bill Scott, Great Falls; Colin MacLeod, Hardin; Louise Jarussi, Red Lodge; Dorothy Rochon, Anaconda; Betty Lou Points, Missoula; Ruth Smalls, Long Beach, Calif., and John Strong, Billings.

Freshmen who tried out are June Luedke, Betty Holmes, Arthur Liff, Bob Milne, Eugene and Camilla Salisbury, all of Missoula; Charles Redpath, Helena; Steven Holland, Butte; Charles Cerovski, Danvers, and James Lyon, Anaconda.

Topics to be debated are: "Resolved: That the Western Hemisphere should form an alliance or union for defense against foreign aggression," and "Resolved: That the power of the Federal government should be increased." The first is the national college question for debate, the latter the national high school debate question.

## Faculty Members Continue Work In Research

Faculty members in the division of biological sciences are engaged in continued research in their particular fields in addition to participation in various organizations of the school and community and their regular teaching and administrative duties, according to Dr. Fred C. Barkley, instructor in botany and curator of the herbarium monographic studies of the Anacardiaceae.

Dr. George Finlay Simmons, university president and professor of zoology, is continuing his research in endocrinology; Dr. J. W. Severy, chairman of the division of biological sciences, is conducting wild life studies; Dr. Gordon B. Castle, professor and chairman of the department of zoology, is conducting research on termites and aquatic invertebrates; Dr. Ludvig G. Browman, assistant professor of zoology and physiology, is experimenting with the effects of light variations on white rats; Dr. Phillip L. Wright, instructor in zoology, who received his Ph.D. in wild life technology at the University of Wisconsin last summer, is continuing his work on coat colors of the weasel.

### Kramer Works on Grasses

Dr. Joseph Kramer, instructor in botany, is doing research work in ecology of native grasses; Dr. Ruben A. Diettert, assistant professor of botany, is continuing his research in morphology of desert shrubs; Dr. Donald M. Hetler, professor of bacteriology and hygiene, is doing research in immunology.

Professor Thomas C. Spaulding, dean of the School of Forestry, is director of the forest and conservation experiment station; Fay G. Clark, professor of forest management, is doing research in wood technology; J. H. Ramskill, professor of forest products, is working on the genetic relationships of morphology of conifer leaves.

Melvin S. Morris, associate professor of forestry, did graduate work in botany during the past summer at the University of Chicago; Dr. Charles W. Waters, professor of forestry and botany, is doing research in silviculture and mycology, and Clarence Muhlick, nurseryman and instructor in forestry, is working with Ramskill on research problems in the nursery.

## Weehauken Boy Becomes Weak

Dave (Noo Jpisey) Millstein was surprised to find Montana people so friendly when he arrived from Weehawken, and after directing traffic en route to the football game last Saturday, he has become practically speechless.

A beautiful girl in an equally beautiful car stopped beside the boy with the Brooklyn accent and said, "Where can we park?"

All that Dave could do was to point vaguely to a parking space somewhere down the line. When he finally recovered sufficiently to talk, he said, "Gosh, I thought all I was supposed to do was to park those cars, not what's in them."

## Hills, Ray Howerton Wed in Las Vegas

Catherine Hills, 40, and Ray Howerton, editor of the 1940 Sentinel, were married October 5 in Las Vegas, Nevada.

Following the wedding they went to Lake Arrowhead lodge in southern California for their honeymoon. Howerton is employed by the Metropolitan Engraving company and Northrup Aircraft company of Los Angeles.

## Service Work Plans Started

Plans are being outlined for the placement of about 25 students on group work projects under the supervision of the Social Work laboratory's volunteer service program, Dr. Harold Tascher, director, said.

Projects to which workers will be assigned are the annual student Red Cross roll call and other Student Union projects, YWCA adult clubs' programs and Girl Reserve groups under student managers Clarence Gustafson, St. Paul, Minn.; Lois Grow, Enid, and Estelle Graham, Missoula.

The volunteer service plan, which offers practical leadership experience, was initiated last year when successful projects were carried on by Wanda Williams, Boulder; Martha Halverson, Lonepine; Elizabeth Grimm, Bridger; Mildred McIntyre, Worden, and Estelle Graham.

Those interested in this quarter's program may see Anthony McCune or Gayle Draper. Volunteers will have the opportunity to take a battery of psychological tests, a part of the laboratory program which helps the student determine his vocational capabilities and comparative social intelligence.

## Initial Maverick Meeting Tonight

Montana Mavericks, independent students' organization, will meet at 7:30 o'clock tonight in the Bitter Root room, Bill Scott, Great Falls, president, announced today. At this meeting the Mavericks intend to draw up a tentative outline of activities for the fall quarter, including the selection of a date for the fall quarter formal. They will also discuss plans for a mixer in the near future to open the independent social season.

Glen Nelson, Missoula, will offer suggestions on the possibility of having several faculty members act as advisors for various groups, while Everton Conger, Missoula, will contact students interested in participating in convocations.

## Assistant Registrar Asks For Addresses

All students who failed to give their local address during registration must report to window 3 at the registrar's office, Henrietta L. Wilhelm, assistant registrar, announced.

It is highly important to have the correct local address, because students are held responsible for information mailed to them.

# EVERYBODY'S Going to See the GRIZZLIES BEAT the BOBCATS!
